

Hindware introduces India's first WC with Aqua Sheet Flushing technology

Hindware, the expert bathroom brand launched India's first water closet with a unique Aqua Sheet flushing technology. The latest technology by Hindware, rinses the WC thoroughly, making it impossible for germs to accumulate. The modern and futuristic water closet, with its geometry-inspired design and duroplast slow-falling seat cover, ensures the aesthetic sensibilities of the consumers are met.

The Aqua Sheet technology uses minimal water which flows in the form of a sheet covering the complete area of the bowl and does not make the usual flushing noise. The smart innovation makes the water closet more efficient and promises an exceptional performance which enhances hygiene and ensures water conservation, hence, Cleaner-Quieter-Smarter.

The WC also saves space and makes a bathroom looks less cluttered owing to its unique curves. The newest WC from Hindware is priced at INR 17,180/- onwards.
